Biology

Effects of auricular acupuncture on anthropometric, lipid profile, inflammatory, and immunologic markers: a randomized controlled trial study

The effectiveness of acupuncture in treating chronic non-specific low back pain: a systematic review of the littérature

Analgesy-Pain

Analgesic effect of auricular acupuncture for cancer pain: a randomized, blinded, controlled trial.

Quality of reporting on randomised controlled trials of auriculotherapy for pain.

Auriculotherapy for Pain Management: A Systematic Review and Meta-Analysis of Randomized Controlled Trials

Randomized controlled study on ear-electroacupuncture treatment of endometriosis-induced dysmenorrhea in patients.

Effect of helium-neon laser auriculotherapy on experimental pain threshold.

Effects of unilateral and bilateral auricular transcutaneous electrical nerve stimulation on cutaneous pain threshold.

Comparison of effects of transcutaneous electrical nerve stimulation of auricular, somatic, and the combination of auricular and somatic acupuncture points on experimental pain threshold.
Auricular electrical stimulation and dental pain threshold.

Auriculotherapy fails to relieve chronic pain. A controlled crossover study.

Perioperative auricular electroacupuncture has no effect on pain and analgesic consumption after third molar tooth extraction.

Acupuncture for cancer pain in adults.

Acupuncture and related techniques for postoperative pain: a systematic review of randomized controlled trials.

Acupuncture for pain in endometriosis.

Anesthesia or Surgical Analgesy.

Transcutaneous electrical stimulation of an auricular acupuncture point decreases anesthetic requirement.

Une étude sur l'efficacité de l'auriculothérapie dans les angioplasties coronariennes.

Auricular electro-acupuncture as an additional perioperative analgesic method during oocyte aspiration in IVF.
Acupuncture and related techniques for postoperative pain: a systematic review of randomized controlled trials

The effect of auricular acupuncture on anaesthesia with desflurane.

Auricular acupuncture for pain relief after total hip arthroplasty - a randomized controlled study.

Auricular acupuncture reduces intraoperative fentanyl requirement during hip arthroplasty--a randomized double-blinded study.

Auricular acupuncture for pain relief after ambulatory knee surgery: a randomized trial.

Auricular acupuncture for postoperative pain control: a systematic review of randomised clinical trials.

Parental auricular acupuncture as an adjunct for parental presence during induction of anesthesia.

The effect of auricular acupuncture on fentanyl requirement during hip arthroplasty: a randomized controlled trial.

Effects of auricular acupressure on pain reduction in patient-controlled analgesia after lumbar spine surgery.
Back Pain

The effectiveness of acupuncture in treating chronic non-specific low back pain: a systematic review of the literature

Randomized Clinical Trial of Auricular Point Acupressure for Chronic Low Back Pain: A Feasibility Study

The short-and long-term benefit in chronic low back pain through adjuvant electrical versus manual auricular acupuncture.

Electrical stimulation of auricular acupuncture points is more effective than conventional manual auricular acupuncture in chronic cervical pain: a pilot study.

Longitudinal changes in the disability level of the elders with low back pain after auriculotherapy

Auriculotherapy on low back pain in the elderly

Auricular acupuncture as a treatment for pregnant women who have low back and posterior pelvic pain: a pilot study.

Migraine
Ear acupuncture in the treatment of migraine attacks: a randomized trial on the efficacy of appropriate versus inappropriate acupoints.

Migraine without aura treated by comprehensive auricular acupuncture: a multicentral controlled study.

Cardiology

Une étude sur l'efficacité de l'auriculothérapie dans les angioplasties coronariennes

Effect of auriculo-acupuncture plus needle embedding in heart point on left cardiac, humoral and endocrine function

Drugs

Auricular acupuncture as an adjunct to opiate detoxification treatment: effects on withdrawal symptoms

Treating drug using prison inmates with auricular acupuncture: a randomized controlled trial

Determining the efficacy of auricular acupuncture for reducing anxiety in patients withdrawing from psychoactive

Acupuncture heroin detoxification: a single-blind clinical trial.

Cocaine addiction: A randomized controlled trial of auricular acupuncture for cocaine dependence.

Auricular acupuncture for cocaine dependence.

Acupuncture for crack-cocaine detoxification: experimental evaluation of efficacy.

Acupuncture for the treatment of cocaine addiction: a randomized controlled trial.

Effectiveness of adjunct therapies in crack cocaine treatment.
Liste des références des études randomisées (maj fev 2013)

Alcohol

A large randomized placebo controlled study of auricular acupuncture for alcohol dependence.

Acupuncture for alcohol withdrawal: a randomized controlled trial.

Smoking

Auricular Acupuncture, Education, and Smoking Cessation: A Randomized, Sham-Controlled Trial

A systematic review of smoking cessation intervention studies in China.

A Randomized Controlled Clinical Trial of Auricular Acupuncture in Smoking Cessation.

A single-blind, placebo-controlled trial of a simple acupuncture treatment in the cessation of smoking.
Acupuncture and related interventions for smoking cessation.

A randomized controlled clinical trial of auricular acupuncture in smoking cessation.

Laser acupuncture for adolescent smokers--a randomized double-blind controlled trial.

Out-of-hospital auricular acupressure in elder patients with hip fracture: a randomized double-blinded trial.

Determining the efficacy of auricular acupuncture for reducing anxiety in patients withdrawing from psychoactive drugs.

Efficacy of auriculotherapy for the reduction of stress in nursing students: a randomized clinical trial.

Auricular acupuncture for dental anxiety: a randomized controlled trial.
Auricular acupressure as a treatment for anxiety in prehospital transport settings.

Auricular acupuncture effectively reduces state anxiety before dental treatment—a randomised controlled trial.

Auricular acupressure as a treatment for anxiety before extracorporeal shock wave lithotripsy in the elderly.

Auricular acupuncture: a potential treatment for anxiety.

The use of auricular acupuncture to reduce preoperative anxiety.

Parental auricular acupuncture as an adjunct for parental presence during induction of anesthesia.

Dermatology

A randomized controlled single-blind clinical trial on 84 outpatients with psoriasis vulgaris by auricular therapy combined with optimized Yinxieling Formula.
Twenty-five cases of intractable cutaneous pruritus treated by auricular acupuncture

Insomnia

Acupuncture for insomnia.

The long-term effects of auricular therapy using magnetic pearls on elderly with insomnia.

Effectiveness of auricular therapy on sleep promotion in the elderly.

Clinical observation on effect of auricular acupoint pressing in treating sleep apnea syndrome.

Senile habitual constipation treated with auricular therapy based on the pattern/syndrome differentiation: a randomized controlled trial.
Auricular acupuncture in the treatment of female infertility.

Randomized controlled study on ear-electroacupuncture treatment of endometriosis-induced dysmenorrhea in patients

Effectiveness of auricular acupressure in the treatment of nausea and vomiting in early pregnancy.

Auricular acupuncture as a treatment for pregnant women who have low back and posterior pelvic pain: a pilot study.

Effect of auricular point sticking on lactation of puerperant

Clinical observation on the treatment of post-cesarean hypogalactia by auricular points sticking-pressing.

Acupuncture for pain in endometriosis

Nervous system and Psychism
Transcutaneous vagus nerve stimulation for the treatment of depression: a study protocol for a double blinded randomized clinical trial.

Clinical trial of acupuncture for patients with spinal cord injuries.

Effect of acupuncture stimulation of the auricular sympathetic point on evoked sudomotor response.

Obesity - Weight

Effects of auricular acupressure on weight reduction and abdominal obesity in Asian young adults: a randomized controlled trial.

Ophtalmology

A combined therapy using stimulating auricular acupoints enhances lower-level atropine eyedrops when used for myopia control in school-aged children evaluated by a pilot randomized controlled clinical trial.
Dan zhi xiao yao yin combined with auricular-point-pressing for treatment of optic atrophy--a clinical observation of 51 cases.

Acupuncture for slowing the progression of myopia in children and adolescents.

The effect of auricular acupuncture on olfactory acuity.

Semi-self-administered ear acupressure for persistent allergic rhinitis: a randomised sham-controlled trial.

Clinical observation on effect of auricular acupoint pressing in treating sleep apnea syndrome.
Auricular acupuncture for dental anxiety: a randomized controlled trial.

Auricular electrical stimulation and dental pain threshold.

Auricular acupuncture effectively reduces state anxiety before dental treatment--a randomised controlled trial.

Perioperative auricular electroacupuncture has no effect on pain and analgesic consumption after third molar tooth extraction.

Electromyographic changes in bruxism after auricular stimulation. A randomized controlled clinical trial.

Surgery

Clinical observations on postoperative vomiting treated by auricular acupuncture.

Does auricular acupuncture reduce postoperative vomiting after cholecystectomy?

Acupuncture and related techniques for postoperative pain: a systematic review of randomized controlled trials.
Auricular acupuncture for pain relief after total hip arthroplasty - a randomized controlled study.

Auricular acupuncture reduces intraoperative fentanyl requirement during hip arthroplasty--a randomized double-blinded study.

Auricular acupuncture for pain relief after ambulatory knee surgery: a randomized trial.

Auricular acupuncture for postoperative pain control: a systematic review of randomised clinical trials.

The use of auricular acupuncture to reduce preoperative anxiety.

Clinical trial of acupuncture for patients with spinal cord injuries.

Effects of auricular acupressure on pain reduction in patient-controlled analgesia after lumbar spine surgery.

Fundamental Research

Effects of auricular electrical stimulation on vagal activity in healthy men: evidence from a three-armed randomized trial.
Liste des références des études randomisées (maj fev 2013)

Effects of electroacupuncture at auricular concha region on the depressive status of unpredictable chronic mild stress rat models.

Brain-Modulated Effects of Auricular Acupressure on the Regulation of Autonomic Function in Healthy Volunteers.

Effect of acupuncture stimulation of the auricular sympathetic point on evoked sudomotor response.
